2019
Year in Review
THANKS TO OUR SUPPORTERS, the Mind & Life Institute continues to rest on solid financial footing, having ended 2019 with revenues higher than expenses.

FROM GRANTMAKING TO CONVENINGS, Mind & Life brings science and contemplative wisdom together to better understand the mind and create positive change in the world. At this critical moment in history, we’re expanding our reach beyond individual well-being to focus on societal flourishing and interconnection.

This was a life-changing experience. It was profound to share space and have dialogue and connection with so many wise and contemplative humans.”

Throughout the week, I kept having the thought, “I found my family.” It was validating and comforting and extremely exciting to have that thought. The overall program and the welcoming nature of the people who attended far exceeded my expectations.”

“The Summer Research Institute was my first introduction to Mind & Life and I thoroughly enjoyed the program overall. In my work I have to attend many conferences across the country and as a member of the global majority I normally feel isolated. This was my first conference where I felt a sense of community and genuineness from not only the participants but the staff as well.”
